## INTRODUCTION

Welcome to my fifteenth sale of fine numismatic literature, which features the outstanding libraries of noted numismatists Douglas A. Winter and William A. Weimer. This offering, complimented by important works from several other significant numismatic collections, was indeed a pleasure to catalogue; and I feel certain that as you peruse the following pages, you will find numerous titles which must be considered essential to the formation of a valuable numismatic reference library.

Doug Winter, noted cataloguer and researcher, has spent more than half of his life meticulously building an enviable library of books and auction catalogues relating to his interest in United States and colonial coins. Born in New York on Feb. 20, 1960, Doug became seriously interested in the hobby while still in elementary school. His first love was in the area of the early state and colonial issues, and he added to his cabinet regularly, as his limited finances allowed. In 1973 he made the acquaintance of the late Aaron Feldman, and began purchasing the literature necessary to gain the knowledge required to systematically assemble his collection in an orderly manner. On those occasions when Doug aspired for a reference which was beyond his modest means, Mr. Feldman would have him research the book and the author; and when the task had been completed to Aaron's satisfaction, the latter would then offer the piece at a fraction of its true monetary value. This "earn as you learn" policy ultimately resulted in equipping Doug with the knowledge necessary to become one of this country's leading numismatic scholars.

In 1975 Doug began "vest pocket" dealing on the coin show circuit, literally working his way through prep school and college. Following his graduation, Doug turned to numismatics as a full time profession, subsequently serving as a researcher for a number of the largest and most prestigious firms in America. Doug's goals in the area of numismatic literature were to obtain the finest available copies of every significant reference book covering U. S. coinages; and to attain the best copies of each of the most important auction catalogues pertaining to his special interests. To examine the contents of his library is to know that he succeeded admirably.

William A. Weimer needs no introduction to those collectors familiar with early American copper coins, his area of specialty. Bill, much like Doug, strived to acquire the most important books and catalogues pertaining to United States large cents, half cents, and colonial issues. A close examination of his cabinet reveals very few significant pieces are lacking.

A fine consignment from Ohio contains several very rare pieces. Chief among these, a fine run of Ed Frossard's enchanting periodical, "Numisma," affords the serious collector with an unusual opportunity to snare one of the scarcest and most desired emissions of the nineteenth century.

The aficionado of early auction sale catalogues will undoubtedly be very interested in lot number 639, Samuel Hatch's sale of Oct. 26, 1865. This is the first and only copy of this catalogue that the present writer has seen or discovered; and according to the consignor, it is the only copy known or reported to exist. This lot represents a chance to obtain a possibly unique piece of American numismatic history.

It is indeed tempting to list here title after title of rare, scarce, and important works offered in this sale. However, such temptation is best avoided, as the descriptions on the following pages should offer fair testimony that additional remarks penned here would merely be redundant. It is perhaps enough to state that the selections offered herein constitute an extraordinary opportunity to acquire many volumes which are seldom encountered in today's marketplace.

This auction, held in conjunction with the San Jose Coin Club's nineteenth annual Coin Show and Educational Forum, is complimented by a nice offering of United States coins and medals. In contrast to last year's sale which contained numerous American rarities, the present auction is being geared more to the needs of the typical collector. While the cataloguing and selling of extremely rare and valuable coins is exciting to all numismatic professionals, the market for such material is very limited, and in most instances the average collector is left out in the cold. Therefore, the auction at hand has been structured to include mainly "collector coins," with most lots destined to command prices under \$200.00. This is not to say that the offering will not contain quality pieces. Rather, the sale will afford the opportunity to obtain numerous high grade examples of those coins which - while not being regarded as rare - are seemingly in constant demand by the collector of more modest means.

I invite you now to examine the many fine lots contained in the following pages, mark your bid sheets, and participate in what should prove to be an extraordinary numismatic event.

Numismatically,

*Cal Wilson*

## TERMS OF SALE

1. This is a public and mail bid auction sale held in conjunction with the nineteenth annual San Jose Coin Club Show and Educational Forum. All lots will be sold on January 16 and 17, 1987, commencing promptly at 7:00 p.m., P.S.T. All lots are unsold and will be sold to the highest bidder.
2. All items offered for sale in this auction are guaranteed genuine and as described. Any claims to the contrary must be made in writing to the cataloguer. The San Jose Coin Club, its officers and its members have no interest or responsibility for the preparation of this catalogue; and participation in this sale by any bidder is construed as acceptance of this fact.
3. All floor sales are final, and no lots may be returned for any reason other than authenticity.
4. Bidders who are unknown to us MUST furnish acceptable credit references or submit a deposit equal to twenty-five percent (25%) of their total bids to assure acceptance of such bids. This policy will be strictly enforced.
5. Mail bids are to be entered by lot number as catalogued. Mail bidders should feel free to bid as much as they want, realizing that all bids are treated as limits, and that all lots will be sold below these limits when competition allows. At the same time, the cataloguer reserves the sole right to refuse totally ridiculous bids, or those bids which in his sole opinion are not entered in good faith.
6. Each lot will be opened by the auctioneer at a small advance over the second highest mail bid received. In the event that there is only one mail bid on a particular lot, the auctioneer will open the lot at a nominal percentage of the estimated value or fair market value of the lot. In the event that there are no mail bids on a lot, the bidding will originate from the floor.
7. Prices estimated following any lot reflect the current market, and are intended solely as a guide to bidders. You may bid higher or lower as you wish. However, it has been our experience that in a public auction, bids which fall substantially below estimates are generally not successful.
8. Terms of this sale are strictly cash, payable in United States funds. Payment is due upon receipt of notification (invoice) or receipt of lots. Title to all lots remains with the cataloguer until paid for in full. We reserve the right to withhold delivery of lots until payment has been received by us.
9. California state sales tax of six percent (6%) will be added to the cost of all lots delivered within California unless a valid resale certificate is on file with the cataloguer. Likewise, sales tax of six and one-half percent ( $6\frac{1}{2}\%$ ) will be added to the cost of all lots delivered within the Bay Area Rapid Transit District of California.
10. No lots awarded to mail bidders may be returned without written permission, and all requests for such permission must be made within three (3) days of receipt of lots. All lots are as described. We do realize that there exists the possibility of errors and/or typographical mistakes. Any errors on our part will be cheerfully corrected. We cannot, however, be responsible for your errors; so please check your bid sheets carefully prior to submitting them.
11. All lots mailed to addresses in the United States will be shipped insured or registered. Lots sent to addresses outside of the U. S. will be forwarded at the risk of the purchaser. Whenever possible, insurance will be provided; however, it should be noted that adequate insurance is often not available

outside of the United States.

12. There is no charge for executing mail bids.
13. All postage, shipping and insurance costs will be billed to the purchaser. In addition, there will be a handling charge of twenty-five cents (25¢) per lot to cover the cost of packaging and processing.
14. A TEN PERCENT (10%) BUYER'S CHARGE WILL BE ADDED TO THE PRICE OF EACH LOT.

Perhaps the finest overall cabinet yet dispersed. A landmark offering. Title and preface a trifle discolored, else fine. Adams p. 94; rated A+ (a shame ther is not a higher grade). Chapman states, in his preface: "Matthew Adams Stickney was born September 23, 1805, at Rowley, Mass., and died August 11, 1894, at 119 Boston Street, Salem, where he resided since 1838. About 1823 he began to collect coins and was probably the first person in America to form a systematic collection of the various dates in the several series. He was a gentleman of great refinement and gentleness of character, ever willing to be of service in our chosen science as is attested by his aid to Mr. S. S. Crosby, when he was preparing his monumental work on the Colonial, State and Washington coins in 1873-1875, supplying many of the coins from his great collection to illustrate the book above alluded to; and which may be noted by comparison of the plates in the present catalogue with those in Mr. Crosby's book. The last few years of his life had been largely devoted to the compilation and publishing of his genealogies of the Fowler and Stickney families in which he was ably assisted by his two devoted daughters. The Misses Stickney write me that the collection delivered to me was their father's entire collection and that nothing had been sold or retained out of it and it is here offered in its entirety. This celebrated collection has for many years been a mystery, as hardly any one of the present generation had seen anything of it; so that it has been a pleasure to me to undertake the work of writing the catalogue. and I can say that I have not spared myself nor my money in its preparation." 4to. 150.00

94. --. CATALOGUE OF THE JOHN STORY JENKS COLLECTION OF COINS. ANCIENT GREEK, ROMAN AND THE ENTIRE WORLD. EARLY AMERICAN COLONIAL AND STATE ISSUES AND UNITED STATES PATTERNS AND THE REGULAR ISSUES. Dec. 7-17, 1921. 653 pp., 7,302 lots. Set of 42 reprint plates accompanies. Henry Chapman's "magnum opus." In terms of size and scope, perhaps the ultimate in cataloging. Taking more than one year to prepare, Chapman succeeded in the creation of a masterpiece which will long maintain a spot on the "top shelf." Reprinted here is the entire FOREWORD which should be of interest to the collector of American numismatic auction catalogues. "John Story Jenks, of Philadelphia, has commissioned me to offer at public auction, without reserve, his entire collection of the COINS OF THE WORLD, ANCIENT AND MODERN.	

"This magnificent collection is the most extensive yet offered American Numismatists, and I trust everyone will carefully peruse the catalogue. The superior examples are so numerous that it is useless to endeavor to designate any special rarity. Descriptions in the catalogue are more complete than usual, as I have given the inscription on the coins in full (all words set in small caps are inscriptions). The 42 plates exhibit 1,412 of the finest coins.

"John Story Jenks was born in 1839, and began collecting coins about 1850. His mother made a purchase, and in the change received a half penny of George II of England, which she gave her little son, much to his delight, and this was the start of his numismatic interests, which he has pursued with assiduous zeal until 1919. He is probably the oldest collector in the United States, and nearly every important sale has contributed to his collection. My brother and I have been favored with his exclusive business in our line since 1875, and almost without exception have sold him all the coins purchased since. He was always alert to improve the condition of his coins, and when a finer example was obtainable, the other was discarded, hence the high grade of nearly every coin in the collection. This circumstance makes me confident that the purchaser at this sale will be highly pleased with the coin delivered.

"I can conscientiously assert that between seller and purchaser my position in describing the coins is neutral. My earnest desire has been to picture to the intending purchaser the coin as I see it, carefully noting weakness in the striking, damages, etc., often so trivial that nearly everyone would pass them by, but I have always felt differently about it, and believe they should be pointed out to the bidder who has not seen the coin. This plan has given great satisfaction in the past, and I cannot refrain from saying that I am in receipt of numerous letters to this effect. Here let me add that I am ready to correct any defect in the catalogue within my power. Suffice it to say I have not spared my faculties, energy or money to give in this catalogue full descriptions of the coins contained in this grand collection.

""Such a splendid collection as this is can only be secured by a liberal expenditure

of money, together with a keen perception of what is good and worth having. This was the goal John Story Jenks tried to reach in all these years of collecting, and the accomplishment I have endeavored to describe in the following pages, a perusal of which I believe will lead the collector to coincide with me when I speak of it as a great collection of Historical, Artistic and Rare Coins.

"The dates of the Rulers will be found to be of interest, and I can assure you it has been no mean task to procure them. The term 'Crown' for silver coins of the size of the U. S. dollar is so familiar to American collectors that I have employed it to a great degree.

"Daniel R. Kennedy, of New York City, will cry the sale, which I know will be a satisfaction to everyone. He is so well known that he scarcely needs an introduction.

"This extensive collection should have some lots in it to interest every collector, and I hope every one will send in all the bids he can make. All bids, large and small, will receive careful attention.

"The outlay to publish this catalogue has been very great, and I trust collectors will show their appreciation of my efforts by either attending in person or commissioning myself or others to execute their bids.

"Thanking my many friends and customers for their liberal support and loyalty in the past, and striving to merit a continuance of the same, I remain,

Sincerely,  
HENRY CHAPMAN,  
Numismatist.  
333 & 335 S. 16th St.,  
Philadelphia"

Booth, who had escaped, but was subsequently captured mortally wounded.
- "This catalogue was printed and issued in several ways, with and without the part in which was the catalogue-portion of Mr. Levick's collection, also each separately; also, 12 copies of each printed on large paper. This sale marked one of the earliest appearances of Haseltine on the numismatic scene. Attinelli states, in part: "John W. Haseltine, the owner of this collection, who has since become so well known to the numismatists of this country as a prominent dealer in coins, was born on the 6th of September, 1838, in the city of Philadelphia, where he was educated. At the age of sixteen he became

a clerk in the book-trade, subsequently was engaged in the wholesale boot and shoe business. In 1861, when the rebellion broke out, he was in New Orleans; hastening North, he assisted in raising a company, of which he became First Lieutenant, was afterwards promoted to be Captain in the Second Pennsylvania Cavalry, which was under the command of Col. R. Butler Price, mustered in the U. S. Service, in October, 1861, serving with his regiment in all the battles in which it was engaged, and received several slight wounds; but at Deep Button, near Richmond, Va., on the 16th of August, 1864, he was again wounded, so severely as to necessitate his being brought home. He was subsequently employed as secretary and treasurer of several mining companies; while thus employed, he sold his collection. He was the special partner of E. Mason, Jr., in the firm of Mason & Co. This partnership not proving a successful venture, he afterwards devoted his entire attention to the coin and curiosity business, on his sole account, in which he has brought out from their secret repositories, a number of scarce and rare pieces, among which may be enumerated the unique Nova Constellatio Dollar, and half Dollar, the former property of Charles Thomson, secretary of the first continental congress, also, the unique Washington cent with reverse of the New Jersey cent.

"Mr. Haseltine is also the author and compiler of an illustrated descriptive list of the colonial and continental paper money, as also of a descriptive catalogue of the confederate paper money.

"In his coin sale catalogues, Mr. Haseltine seldom, if ever, overrates, and more frequently underrates the quality of the pieces he describes, and still more frequently makes no mention of their quality or rarity, possibly from a mistaken idea, that every body else knows more on that subject than himself, or from a determination to keep on the safe side. The same trait of conscientiousness, highly to his credit, will probably have been observed, that, in buying, he endeavors to purchase for his patrons at the lowest possible price, regardless of the sum to which he may be authorized to advance."

The catalogue here offered should be considered one of the finest copies extant.  
Exceedingly scarce in this state of preservation. 8vo.

Massamore catalogues seem not to have survived in as large quantities as those of his contemporaries. Perhaps this is due to a smaller mailing list, inferior qualities as a cataloguer, or merely a gradual deterioration of the catalogues caused by the use of low grade materials. In any event, his sales are indeed scarce. 8vo.

411.	Pennypacker Auction Centre.	THE FAMOUS LEONARD M. HOLLAND LARGE COPPER CENT COLLECTION.	Mostly in uncirculated condition 1793 to 1857.	Featuring many finest known varieties.	May 8-9, 1959.	Lots not numbered. Few illustrations. All large cents handpriced in blue ink. Leonard Holland was forced to sell his remarkable collection in order to satisfy a loan on which his cabinet had been offered as collateral. Regretably, rather than have a well established coin auction firm sell the coins, the People's Trust Company of Wyomissing, PA, consigned the pieces to a local estate auction firm, Pennypacker Auction Centre. As a result, many serious collectors of the time were unaware of the sale, as the auction firm, naturally, did not have any significant mailing list of numismatists. Word of the sale did get to a small handful of collectors and dealers, and this group agreed beforehand to play a game of "knockdown" during the auction, which resulted in Holland's coins bringing extremely low prices. The group later gathered and "resold" the coins at a substantial profit. An extremely elusive catalogue. Self covered. Bit worn and lightly creased, but altogether better than very good. 8vo.	75.00

473. Strobridge, William H. PRICED CATALOGUE OF COINS AND MEDALS THE PROPERTY OF WILLIAM A. LILLIENDAHL. May 26-28, 1862. 53 pp., 1,230 lots. The scarce post-sale edition with prices printed next to each lot. Strobridge's first sale. Adams p. 38; rated A-. Attinelli p. 25; R-6. Later red cloth, gilt, with original covers bound in. A fine, sound copy of an important and very scarce catalogue. Attinelli

writes: "This catalogue was issued subsequent to the sale, with printed prices.

"This collection, one of the finest presented for public sale up to that time, was, as already stated, the property of Mr. William A. Lilliendahl, who was actively engaged in mercantile business. A gentleman of affable and genial disposition, abounding in good humor, of very sanguine temperament, with fine cultivated tastes, which directed him promptly in the selection of fine or rare pieces for his cabinet, as the quality of the coins, in this sale as well as those sold in his collection of 1863, gives amplest evidence.

"Mr. Strobridge, who prepared this catalogue, and whose name as a most enthusiastic admirer of antiques, whether in the form of coins, bronzes, engraved gems or ceramic ware, has since become through the catalogues prepared by him, inseparably connected with some of the finest collections sold in this country.

"The following brief sketch of this gentleman may perhaps not be here inappropriate.

"William Harvey Strobridge first saw the light on the 9th day of January, 1822, in the town of Barnet, Caledonia County, amid the Green Mountains of Vermont. Having passed there the earlier period of youth, he subsequently, with the noted versatility of the Eastern people, became employed in various occupations. Endowed with tastes, which led him to the study and acquisition of the antique coins of Greece and Rome, he next became interested with those of Great Britain, then those of his own country and of Continental Europe. His large and fine cabinet of ancient coins, etc., he sold to Mr. W. A. Lilliendahl.

"Mr. Strobridge's familiarity with numismatics, his extensive fund of tale and anecdote, the convenient locality of his office, soon rendered the latter a centre to which those of congenial tastes were rapidly attracted; there to discuss about, barter, or otherwise dispose of their coins or bric-a-brac.

"Thus did he gradually, undesignedly, but naturally drift into the profession and pursuits of an antiquary, to which he now exclusively devotes himself. His extensive reading and retentive memory eminently fit him, to cope with the many forms, shapes, and varieties in which the products of antiquity present themselves.

"Fine examples of his work and ability are shown in the catalogues of the 'Lilliendahl collection' sold in 1863, the Middleton, Gay, Stenz, the several Holley collections, and others, which will well repay the studious numismatist to examine."

An unusual opportunity to obtain one of the early classics. 8vo.

cover detached, but present. One of the all time great collections. This copy is also deserving of a little restoration. Untrimmed edges. Adams p. 28; rated A+. Attinelli p. 36; R-4. In his monumental bibliography, Attinelli states:

"This noted collection, always spoken of as the 'McCoy' collection, was sold by that gentleman to Mr. W. E. Woodward, whose property it was, when sold at auction. It consisted almost exclusively of American coins and medals. It contained, with but one exception, the finest collection of U. S. Cents ever offered at any sale. Exceedingly rich with 'Political pieces,' many of them exceedingly rare and fine, added to a fine collection of 'American Medals,' it was deservedly celebrated. To this collection of coins Mr. Woodward added his fine collection of coin catalogues, circulars, pamphlets, and various other 'Numisgraphics.'"

Tipped into this example is a list of the purchasers of the large cents at the sale, prepared by noted copper collector Bob Vail. Another unusual opportunity to obtain an American classic. 8vo.

Covers a trifle chipped at edges, else fine. Adams p. 30; rated A-. Very scarce early plated catalogue. Following lot 921, the rare 1802 half dime, Woodward makes the following commentary; "The piece is undoubtedly the rarest of the American silver series - not only that, but it must remain so, as the dies are no longer in existence. Judging from my own experience, I believe that the purchaser of an 1804 dollar, or any one of many of the rarest of American coins, has no guarantee that the son of some future director or chief coiner of the Mint will not, at an unexpected moment, place a quantity on the market. 'What man has done man may do;' and the ways of the Mint of the United States are past finding out, though transactions, such as restriking 1804 dollars, 1827 quarter dollars, and rare half cents, and speculations in rare experimental coins designed, engraved, and struck at the expense of the government, have become too frequent not to be well understood. What the lords of the treasury will do next is 'what no feller can find out.' We will wait and see.

"In these days of investigation, an inquiry into the past operations of the Mint at Philadelphia, or rather into the past conduct of some of its officials, would, if properly conducted, be fruitful in results; and if properly reported, would furnish what Horace Greeley used to call 'mighty interesting reading.'

"As Government is fond of illustrating its reports, as a frontispiece, is suggested a view of a son of a late official of the Mint, as he appeared at the store of the writer, when on a peddling expedition from Philadelphia to Boston, he drew from his pocket rolls of 'God our Trust' patterns, and urged their purchase at wholesale, after sundry sets had been disposed of at one hundred dollars each to collectors of rare coins, with the assurance that only a very few had been struck, and that the dies were destroyed. Should, however, an investigation be ordered, it is to be hoped it will not be entrusted to that committee which requires 618 sets of the goloid coinage, costing nearly \$4,000 for metal alone, before it can decide whether to recommend the acceptance or rejection of the most stupid humbug and stupendous swindle that has lately been honored with official attention."

The following consignment was obtained from a very prominent old time numismatist who resides in New York. This offering commences with a most unusual variety of numismatic plates and photographs, many obtained from Tom Elder directly, and others from the estate of Wayte Raymond. Due to the rather esoteric nature of these items, the present writer has elected to utilize the descriptions offered by the consignor, recognizing that his words could not be improved upon. Due to the age of many of these pieces, the overall condition will range from very good to fine. In a few instances, the items may have minor chipping at the edges.

626. Chapman, S. H. & H. COLLECTION OF COINS AND MEDALS OF THE UNITED STATES. Mar. 20, 1883. 36 pp., 639 lots. Neatly handpriced throughout in red ink. Original white paper covers, gilt, a bit discolored, as usual, and lightly chipped at corners. Otherwise, a fine copy. Adams p. 85; rated A-. Some excellent copper. 14 lots of literature. Following lot 611, a copy of the Bushnell catalogue, the cataloguers offer the following commentary, delightful for its flavor of the era: "This catalogue surpasses any heretofore issued in this country for the descriptions, the inscriptions printed in full in capitals, the chronological arrangement throughout, the placing of the early coins under their proper headings, which is the first time they have thus appeared in a sale catalogue, and which, with the arrangement, makes it peculiarly easy to reference, for the fineness of the typography and paper, and for the beauty, size, number of the plates, and the rarity of the pieces represented, many of which had never before been photographically illustrated. We take this opportunity to mention a few merits which we hope collectors consider it contains.

"Several of our competitors, driven frantically jealous by the success of the catalogue and the sale, have endeavored to magnify a very few small errors, principally typographical, and which are noted in the supplementary priced list, and have exerted their utmost to belittle our efforts by comments and insinuations, which we have regarded as not being worth our consideration.

""We will soon publish the correspondence, etc., on the Samaritan Massachusetts Shilling, between Mr. Bushnell and the gentleman in London from whom he purchased it, and will forward copies, gratis, to the subscribers to the catalogue; copies will be supplied to the other dealers to transmit to the parties who subscribed through them. It will be printed on the same paper and of the same size as the catalogue, so that they can be bound together." 8vo. Scarce. 35.00

628. --. THE CHAPMAN COLLECTION OF FINE ANCIENT, FOREIGN AND AMERICAN COINS AND MEDALS. 1804 DOLLAR. May 14-15, 1885. 67 pp., 1,253 lots. Adams p. 86; rated A-. Original paper covers a trifle discolored, else a fine copy of an important sale. Of the 1804 dollar offered, the cataloguers stated: "The specimens known are in the collections of; 1. Cabinet of the U. S. Mint, Philadelphia, weight 415.2 grs. 2. M. A. Stickney, procured by him from Mint Cabinet, in 1843, in exchange for other coins. 3. W. S. Appleton, bought at an advance on \$750, in 1868, from E.

Cogan, who purchased it from W. A. Lilliendahl, who bought it at sale of collection of J. J. Mickley, 1867, for \$750. 4. L. G. Parmelee, bought at sale of E. H. Sanford's collection, 1874, for \$700, who obtained it in 1868 from an aged lady, who got it at the Mint many years before. 5. W. B. Wetmore, bought of Mr. Parmelee in 1868 for \$600, from sale of H. S. Adams' collection, 1876, at \$500, from sale of M. I. Cohen's collection, 1875, at \$325 (in fair condition). 6. Present owner unknown to us; formerly in collection of R. C. Davis, and recently sold for \$1200. 7. S. H. & H. Chapman, purchased October 13, 1884, at the sale of a fine collection in Berlin (where we also secured some other gems, viz.: 1795 Bust, 1802 over 1, 1803 dollars; 1795  $\frac{1}{2}$  dollar; 1796  $\frac{1}{4}$  dollar; 1800 Dime; 1793 cent, etc.). We have written to Mr. Weyl, the cataloguer, for information as to its previous ownership, but have not yet received his reply. This great gem is identical with and struck at the same time as those above mentioned.

"We have compared it with that in the Mint, turning them round together, and they are absolutely the same, with our a trifle the finer.

"We have recently examined Nos. 1 Mint, 3 Appleton, 4 Parmelee, 5 Wetmore, and all are alike. No. 6 we saw some years ago, but we do not now remember it well enough to describe it. Mr. Davis states 'that it corresponds precisely with No. 1.'

"Mr. Stickney wrote that he was in too poor health to show us his specimen, but kindly informed us that it was the same as that in the Mint. He gave, on June 9, 1843, an Immune Columbia in gold and other pieces for it then the duplicate in the Mint cabinet. This also proves that the specimen now therein was in the collection in 1843, fifteen years previous to the restrike, and the large prices for U. S. rarities which tempted their issue. It is also described in Eckfeldt and DuBois Manual, 1842. For a letter from Mr. Stckney in regard thereto see Am. Journal of Numismatics, 1867, Vol. II. p. 41.

"We desire to express our thanks to Mr. Appleton, Mr. Parmelee, and Mr. Wetmore for their courtesy in permitting us to examine the specimens in their collections; to Mr. Davis for valuable information in regard to restrikes, a; to Mr. Snowden, Supt. U. S. Mint for the date of the destruction of the dies; also to Mr. DuBois. Asst. Assayer of the Mint, for weighing these pieces.

"It is the first one that has been offered at auction for eight and a half years, and ten and a half years since one at all approaching it for state of preservation, and should bring a large advance on the previous prices. There is no other coin in the United states series which has such a widespread and acknowledged great value and rarity, or which adds so much numismatic glory to a collection, as the King of American rarities - the 1804 dollar.

"The 1804 dollars are of two classes, to wit:

"1st. Originals, which are from but one obverse and one reverse die, as the present specimen described and those quoted above.

"2nd. Restrikes; a. There were struck in the U. S. Mint, in 1858, restrikes with plain edges, of which three were recovered after diligent search; two of these were destroyed in the Mint, and the other placed in the cabinet, where it remains.

"The differences between these and the originals are as follows: Obverse - the original die was recut in the word LIBERTY, the stars, and date, which made them larger and deeper, especially noticeable in the stars, which are broadened, also in the date, it making the outlines sharp and square. whereas in the originals they are somewhat rounded. Reverse - not having the original die, they used another which differs in many respects, most easily noticeable in that the A touches the Eagle's claw, the OF much nearer the end of the Eagle's wing than S in STATES (in the original it is equally spaced). Edge. plain. Weight, 381.5 grains. One spec-

imen is in the Mint and another in England.

"b. Stuck between 1860 and 1869, as in the latter year all dies remaining were destroyed. Same as the above, but endeavors made to letter the edges in the absence of a complete collar by using pieces of collars, which did not contain all the letters, but repeated some of them several times. The only one which we can now place was sold in the Berg collection, 1883, for \$740, and showed all the peculiarities mentioned, and its weight was said to be inaccurate.

"The dies were destroyed in the winter of 1868-9, and there are none in the Mint prior to 1885; affidavits to this effect can be obtained. After the close of each year all dies are now destroyed. No counterfeit dies of the 1804 dollar were ever made."

It is an accepted belief among many numismatic scholars that the coin offered in this sale was actually obtained locally by the Chapman brothers, consigned to Weyl's sale, and "bought in" so as to establish an air of mystery to the pedigree. Although much of the information contained in the catalogue here offered is now known to be inaccurate, the presence of such descriptions boldly illustrates the unequalled abilities of the two young antiquarians at a time when most sale catalogues were little more than monotonous lists of coins for sale. 8vo. 45.00

scarce sale - one of only five catalogues emitted solely under Proskey's name. Adams p. 57; rated B: "Definitive Confederate paper from the man who wrote the book." Proskey, often recognized as one of the most accomplished numismatists of his time, spent most of his career preparing catalogues for the other major dealers of that era. In a biting preface to the Thian catalogue, he wrote:

"The undersigned, in presenting to the public the second catalogue issued with his sole signature, wishes to assure the collectors who may be unknown to him, that he believes his experience in the business has been second to none in this country. That while having compiled catalogues for all the principal dealers for years past, many collections of more or less merit have been distributed which were his individual purchases, but the 'glory' of the sales was given several dealers.

"Several correspondents, wishing to dispose of certain portions of their collections, having suggested that the sale be under the supervision of the undersigned solely, he adopts the suggestion, and desires the public to note the following points which the dishonest descriptions of certain cataloguers now force upon well-meaning numismatists.

"Every coin, medal or note herein catalogued, whether ancient or modern, is guaranteed genuine (exceptions otherwise described); the cost refunded at any time the contrary being proven, without regard for whom the article may have been sold.

" The preservation of the pieces noted with a fairness to buyer and seller, avoiding all excessive terms.

"The rarity of pieces never quoted except when actually worthy.

" Being blessed with good eyesight, and being able to distinguish a Dollar from a Dime without the aid of a reading glass and five minutes examination, the reader will never find imaginary 'die-varieties' herein described.

"This collection of Confederate notes exceeds in size by nearly three hundred notes the finest collection ever offered, and is to be sold on its merits, absolutely without limit or protection, contrary to the present common custom. Its owner, Mr. Thian, being without doubt the highest authority on the subject of Confederate money, possessing all particulars relating to the issues and quantities, gleaned from the archives of the Confederate Government, has cleared up many errors existing in the Haseltine catalogue, exposing the fallacy of considering the \$100 or high value notes to be scarcer than the lowest values, when the observer will find, in nearly every instance, the contrary to be his experience. A large value note circulates less, and lasts longer; consequently, the low denominations are usually rare in sets or fine condition.

"As the prices for these notes have reached their lowest point, the opportunity for completing sets, and for new collectors in this field to make a beginning has now arrived. Commonest notes often sell for but five cents each. What kind of money could ever be obtained so low? To say naught of their historical worth as momentos of the greatest struggle for supremacy the world has ever experienced...

"The coins, medals, etc., speak for themselves."

An unusual opportunity to acquire an elusive and important catalogue. 8vo. 50.00

The sudden death, October 16th last, of her dear husband, and our esteemed friend, has deprived her of that pleasure which she had in view, and consequently she has placed the entire collection (except the cabinet and numismatic books) in our hands to be sold. Original white paper covers, gilt, bit discolored and worn, else fine. In the introduction, we learn, "Thomas S. Collier was born in New York City, on November 4, 1842, and during the Civil War served bravely in the U. S. Navy, receiving severe wounds from which he recovered sufficiently to continue in service, but their effects finally compelled his honorable retirement a few years ago. He died after only a few days illness on the 21st of September, leaving a wife to survive him, by whose orders as executrix this sale is held.

"Mr. Collier devoted his leisure to literary pursuits and to his collection of coins, of which he was an ardent student. He produced many charming sonnets and was a contributor to the magazines, The Century, Atlantic, and others. His collection of United States and Modern coins was sold under our direction in 1886.

"In this catalogue will also be found a line of historical coins belonging to the above, the good general collection of the late Samuel Badlam, and the fine Numismatic library of Mr. C. T. Whitman, the last we had not time to include in the sale in August." Adams p. 87. Rated B-. 8vo.

Photocopy of prices realized list bound in. From the preface: "In this catalogue of the collection of John G. Mills, Esq., of Albany, New York, we describe one of the finest collections of the coins of the United States that has ever been offered at public sale. Mr. Mills, born in Albany, July 19, 1865, and one of the younger collectors, has devoted a great part of his time during the past twenty years to the formation of this superb collection, and it is to be regretted that he has concluded to dispose of it, yet on the other hand, it will give other numismatists an opportunity of enjoying the possession of the beautiful specimens which it contains.  
They have nearly all come from fabulous cabinets and as Mr. Mills has in nearly every case preserved the pedigree of previous ownership as it may be termed, we have stated them in many instances in our catalogue. It is important to do so, not only on account of the examples themselves, but to prevent the feeling arising in the minds of collectors that additional specimens are appearing when they are the same pieces that have been known in previous collections."

Tan cloth, gilt. A landmark sale, offering virtually every American rarity, as evidenced by the Chapmans' remarks in the preface.  
"The late Mr. Harlan P. Smith for a great many years was an ardent amateur collector of coins, and during the later period of his life engaged actively in dealing in them, but always endeavored to improve his own private cabinet, and collectors will here find a collection that takes rank with the finest that have ever been sold as regards completeness, rarity, and preservation, and probably equals in value the great Mills collection, which we sold two years ago, for what it may lack in the colonial series in comparison with the former collection, it surpasses in the United States gold coins, for it contains all the great rarities in the latter series and is complete in the silver, with the exception only of the 1804 dollar."

Recent crimson cloth, gilt, with original paper covers bound in. Attinelli p. 73. R-5; but even more scarce this nice. One of the earliest "landmark" sales. Adams p. 22. Rated A. Contained 1804 dollar. Speaking of the collection, Attinelli noted, "What the Stenz collection was to German coins, this collection is to American mint issues in particular, few of which are missing. Colonial pieces were also well represented, as were also the British series; several of the rarest of which were to be found in this celebrated collection. Of the rarity and beauty of many of the American pieces it is needless to speak, as the catalogue itself (the work of Mr. Cogan) shows faithfully enough. Fine and rich though the collection was, its sale was not a success, which could only be attributed to the unfortunate enforced absence, through sickness, of Mr. Edward Cogan, under whose supervision the sale was to have taken place; that absence was severely felt by all, and probably by no one more than Mr. Cohen." A fine, sound example, worthy of a premium bid. 8vo. 100.00

1075. --. Another copy, but 8vo size. Later brown cloth, gilt. A fine piece. Of the elder Chapman, Elder writes, in his introduction, "The announcement of the retirement of S. H. Chapman, Esqr., from the ranks of the numismatic dealers came as a surprise to the writer and must have surprised many of his customers. the numismatists of the country. From the earliest times an advocate of historical and archaeological coin collecting, and as one of the originators of the American style of cataloguing, giving classified headings, he takes rank as pioneer among our modern numismatists. His careful catalogue work covering a long period of years, with his splendid photography show he has few numismatic peers. His interest in the artistic side of ancient numismatics, and his long study of this branch are to his credit, and he has always tried to discourage mere date collecting. He retires gracefully, not broken down in health, as most men retire, but able to stand erect and walk as a young man. We wish him the best of luck." 30.00

This sale marked the 20th anniversary of New Netherlands, and to commemorate the event, a brief history of the firm was offered as a prologue to the catalogue. NEW NETHERLANDS COIN CO.

1936 - 1956

The New Netherlands Coins Company was founded twenty years ago by Moritz Wormser, father of the present president. Mr. Wormser, Senior, was an internationally famous numismatist, who had been a collector of coins from the time that he was a boy until the business opened its doors, September 15, 1936. In addition, he had served for five terms as president of the A.N.A., an honor accorded no one else to this day. Moritz Wormser also held various offices in many other numismatic organizations, and was well known for sundry literary contributions to the coin field.

Our first office was at 95 Fifth Avenue. The Company remained there for the first ten years of business. The initial staff consisted of Mr. Wormser, Charles M. Wormser, the late David M. Bullowa and Miss Helen Deutsch.

New Netherlands' original stock consisted mainly of Mr. Wormser's collection and material which was immediately offered. Despite a serious robbery, which occurred three months after we started business, the firm prospered from the first and established a standard for integrity which we have endeavored to maintain assiduously.

Mr. Wormser, Sr., died in 1940 and shortly after his death, the first auction sale was held. Since we were not equipped to handle public sales at the time, the medium of mail bid sales, which is still continued to some degree, was used. In 1940, Charles M. Wormser went on active duty with the U. S. Navy and remained in service until the middle of 1946. However, the business was conducted by David Bullowa until he went on active duty with the Army in 1942, at which time the late Stuart Mosher

came to the firm as general manager. Upon Commander Wormser's return to civilian life, Mr. Mosher felt that a more salutary climate would benefit his health and he therefore left us, to our regret.

In September of 1946, we moved to our present address, and for the next four years operated the coin department of the Scott Stamp and Coin Company. A change in internal ownership caused our incorporation on January 1, 1947.

On the dissolution of our association with the Scott Stamp and Coin Co., we took offices with Scott Publications, Inc., and remained with them through 1952 at which time we felt it was necessary to have our own quarters again.

In January of 1951, we were fortunate in acquiring the services of our present vice-president, Mr. John J. Ford, Jr., a recognized and highly competent numismatist.

Starting in 1947, in addition to the mail bid sales, public auction sales were conducted, and since 1951 this method of merchandising has increased our business considerably, particularly due to the meticulous cataloging of Mr. Ford.

Miss Deutsch left our employ towards the end of 1951, and in 1952, we acquired the invaluable talents of Mr. Walter Breen, now known nationally for his research and scientific study in the Early American and U. S. fields.

To take the place of Miss Deutsch we added to our staff Mrs. Doris Neary (at that time Mrs. Murphy); we are sure that all of you who have visited our offices are familiar with her charming manner.

Space, memory, and a regard for anonymity by many of our clients necessarily limits our list, but among the better collections handled wholly or in part, we might mention the following: Virgil Brand, Agnes Baldwin Brett, T. J. Clarke, Willis O. Crosswhite, Homer Downing, J. J. Gambert, George W. Gillette, R. J. Kissner, Ralph J. Lathrop, Dr. Clarence W. Peake, Wayte Raymond, O. K. Rumble, Hillyer Ryder, D. C. Wismer, John Zug, and certainly, many, many others.

1151. Raymond, Wayte & MacAllister, J. G. THE HOWARD R. NEWCOMB COLLECTION. UNITED STATES CENTS. PART I. 1793-1814. (and) PART II. 1816-1857. Feb. 7-8, 1945 & May 16, 1945. 50 & 21 pp., 906 & 384 lots, 7 plates. The two catalogues of this monumental sale bound together in recent blue cloth, gilt. Essentially very fine. In the introduction (foreward), the cataloguers write: "In describing Mr. Newcomb's magnificent collection of U. S. Cents it was inevitable that we would not do it justice. Complete volumes have been written about individual years of these cents and still have not wholly covered the subject; so it was unavoidable that in the space of an auction catalog we would leave more unsaid than we could possibly say. We have tried however to give an accurate description of the condition and color of each coin. Our descriptions may be relied on as being fair, which means they are very conservative when compared with present day standards. We have confined ourselves to a well justified use of superlatives in description and have noted defects of any kind in the few instances where we found them. We have avoided a senseless repetition of the word RARE. Nearly every coin in the collection might be called rare for one reason or another but the word would cease to have any meaning..."

"The cents came to us in individual boxes and each box contains Mr. Newcomb's attribution of the coin. These attributions are usually much more detailed as to the several stages of the dies, as indicated by cracks, etc., than we could give in the space of an auction catalog, so we are keeping the boxes intact with the coins and they will be delivered in that way. This should be a satisfaction to every purchaser as Mr. Newcomb's inimitable printing is now well known to every Cent collector, and these boxes will forever identify the coins as from his collection."

"The coins will not be exhibited in the usual way, the danger of lots getting mixed or disappearing altogether is too great. They can be seen at any time previous to the sale by appointment with the catalogers, and will be available the day before the sale and the morning of the sale in the auction room, but will not be laid out for indiscriminate handling. It is suggested that as many as possible who desire to look over this collection carefully do so before the sale by appointment with the catalogers in order to avoid a last minute rush and possible disappointment."

Very scarce and in much demand. A lovely copy. 4to.

1153. --. THE COL. JAMES W. FLANAGAN COLLECTION OF GOLD COINS. New York, Mar. 23-25, 1944. 119 pp., 1,681 lots, ill. Original prices realized list tipped in. Original blue printed card covers a trifle worn at bottom of backstrip, else a fine copy of this very important sale. Lot 1681 offered the following piece: "THE EXCESSIVELY RARE 1933 DOUBLE EAGLE. Brilliant uncirculated. Perfect gem with the full mint bloom, the last year of issue. Although this is the first one that ever came up in any public auction and there is not a price set on this in the 'Standard Catalog' we know that 8 or ten of the pieces were sold privately from \$1,000.00 to \$2,200.00. This piece has cost the Col. the tidy sum of \$2,200.00 which has set a new high for this coin. He paid this price to one of our leading dealers in the south. Excessively rare and in great demand, no buy orders on this coin will be accepted."

Unfortunately for numismatists, this coin was seized by the government prior to the auction, and was not offered, as it was deemed that the item was not officially released, and was therefore illegal to own.

1175. --. CATALOGUE OF A VALUABLE COLLECTION OF AMERICAN COINS & MEDALS, THE PROPERTY OF CHARLES CLAY, M.D. Dec. 5-7, 1871. 97 pp., 1,356 lots, 2 fine plates of coins. Most lots handpriced with occasional buyers names and remarks. Contemporary half morocco and marbled boards, bit worn. Otherwise, a fine copy of a most important sale. In the introduction, Strobridge stated: "It is now some ten or twelve years since the name of Dr. Charles Clay, of Manchester, England, became known to American collectors, in connection with an already celebrated Cabinet of Coins. American travellers, with antiquarian tastes, have been in the habit of calling upon this genial and enthusiastic collector, at his home, and viewing his rarities, many of which were to be seen nowhere else. From these gentlemen, the fame of Dr. Clay's collection has spread far and wide; besides, the Dr. has never been slow to furnish his correspondents on this side of the Atlantic with rubbings and descriptions of his most valued pieces. Among those most favored, in this connection, are Messrs. W. Elliot Woodward and S. S. Crosby, of Boston, to whom, in advance of the Catalogue, almost every piece in the collection is known.	

"This cabinet, unique as it is, is now before the public for sale. Its owner having enjoyed its possession for many years, is now willing to let it pass into other hands for the gratification and improvement of young minds. It is to be lamented that every lover of Numismatics in America cannot have an opportunity to study this collection as a whole; but it is still to be hoped that its dispersion will be attended with reasons for congratulations to them, and will also compensate its generous owner in one way for the sacrifice which he has consented to make in another.

"The pleasant labor of preparing a catalogue of this fine collection, has, through the kindness of Messrs. Leavitt & Co., devolved upon me, and I have endeavored to discharge my duty fully, both as regards my relations with them and the collectors. Although a catalogue is, to a collection of coins, but little more than what a

title-page is to a book, still something may be learned from a description; and this part of my task I am conscious of having performed with caution, having rather under than over stated the merits of my subject.

"I am frequently asked if the collection is equal to its reputation; if the catalogue will not disappoint those of our collectors who stand in the first rank. My answer is, I think not. Leaving out the somewhat monotonous series issued by the mint, in no other collection of equal volume have so many rare and valuable American pieces been found as in the one before us.

"To confirm this strong statement, it will only be necessary to refer to a few pieces in several of the leading departments. Among the New England coins are the N. E. three-pences and pennies; in the Rosa Americana Department is the penny of 1733, and others which for variety or beauty challenge our admiration. In the list of Continental issues, we find for the first time the silver dollar of 1776; also, the remarkable and almost unique medal of 1783; here are the rare pattern colonials of Geo. I., never before offered, and of the greatest importance; the beautiful and costly medal in gold, struck in compliment to the Prince of Wales; the scarcely less valuable one in silver in the same department, on which the American Eagle stands opposed to the British Lion on the banks of the River St. Lawrence; the numerous and beautiful examples of State coinage; the splendid Washingtons; the hitherto unknown Florida medal, and the unequalled series of cents.

"Referring briefly to what I have said concerning the accuracy or rather the moderation of my descriptions, I am strengthened in my position almost beyond the need of further support, until the collectors have the opportunity to judge for themselves, by the unqualified and spontaneous indorsement of my friend, Mr. Woodward.

"Trusting to meet many new, and all the old, collectors at the Court where the verdict of an American jury awaits the case of my client,

I subscribe myself,  
Most respectfully and  
cordially,  
W. H. STROBRIDGE"

I am proud of the privilege of being allowed to offer not one, but two copies of this magnificent catalogue in this sale (see lot #476). 8vo. 350.00

1176. --. CATALOGUE OF A MISCELLANEOUS COLLECTION OF COINS AND MEDALS, PARTICULARLY RICH IN AMERICAN CENTS AND AMERICAN GOLD, FROM THE CABINETS OF L. G. PARMELEE AND G. F. SEAVEY. New York, June 18-20, 1873. 76 pp.. 1,202 lots. Recent blue buckram, gilt, with original paper covers bound in. An important cabinet, formed by Seavey, subsequently sold intact to Parmelee, and thereafter offered for sale at auction. Adams p. 39; rated A-. Attinelli p. 66. R- 5. Attinelli writes of the sale: "This collection comprised duplicates. Mr. Parmelee having purchased Mr. Seavey's cabinet, and chosen therefrom such additions, as he desired, placed the remainder before the public for competition. It, of course, contained many fine and rare pieces.

"Mr. Loring (sic) G. Parmelee was born in the town of Wilmington, Vt., May 7th, 1827; he moved to Boston in 1849, where he established himself as a baker, which vocation he still pursues. His business naturally threw in his way many copper coins, observing the oddity of many of these, he commenced placing aside the early colonial pieces and the regular issues of the mint; as fortune favored him, he replaced poor by better specimens, occasionally making slight purchases, as he became more familiar with the rarity and value of pieces; in 1865 he made a single purchase to the amount of \$200 from Mr. Ahlborn, the well-known Boston dealer. Thus far Mr. Parmelee had confined himself almost exclusively to the copper coinage of which he had now a fine collection. His purchase of the Seavey collection, at once placed him among the leaders in numismatic collections, he has since purchased the American portion of the Adams, and lately the entire collection of Mr. J. Carson Brevoort. The purchase of these cabinets, in addition to the purchases

of several smaller collections, has undoubtedly placed his cabinet at the head of all collectors in this country, in his specialties, the colonial and mint series of coins, whether of gold, silver, or copper. In disposing of the above collection it must be borne in mind that Mr. Parmelee disposed only of duplicates, as was also the case with his sale of June 1876, excepting of course all coins or medals, which are not included in his special lines.

1182. --. CATALOGUE OF THE STENZ COLLECTION OF MODERN COINS, MEDALS, AND TOKENS, THE MOST EXTENSIVE EVER PUBLISHED IN AMERICA. New York, May 17-22, 1875. 236 pp., 3,871 lots. Adams p. 39; rated A+. Attinelli p. 73. R-4. Speaking of this outstanding cabinet, Attinelli wrote: "This collection, which consisted principally of coins and medals of the various German Principalities, was probably the largest collection ever offered in this country, in point of number of pieces, many of them in extremely fine condition, and well worth the great labor and research bestowed in the preparation of the catalogue by Mr. W. H. Strobridge. While it is to be regretted that the pecuniary result to the owner must have produced a loss, yet the catalogue on which so much care and labor was bestowed, must ever remain a work of the greatest instruction and utility to the American collector seeking information relative to the branch of coins principally treated upon. It is true, that there are many learned works which go over the ground more fully perhaps, yet they are almost exclusively written in the Latin or German languages. This catalogue may be indeed termed a 'pocket Epitome of Teutonic Coins.'"

1184. --. CATALOGUE OF A VALUABLE COLLECTION OF COINS AND MEDALS, MADE BY AN AMATEUR, AND NOW THE PROPERTY OF LORING (sic) G. PARMELEE. WITH AN IMPORTANT ADDENDA BELONGING TO J. AUGUSTUS JOHNSON. New York, June 12, 1876. 137 pp., 2,557 & 352 lots. Adams p. 40; rated A+. This collection was formed by noted eighteenth cen-

tury collector J. Carson Brevoort, who sold it en masse to Parmelee. The latter, as was his practice, removed the pieces which he desired for his own cabinet, and consigned the remaining specimens to the hammer. Even with the removal or replacement of certain examples, this cabinet is nevertheless recognized as a landmark sale. The section containing American, colonial and state coins and tokens is mostly handpriced with many buyers' names. Scarce and of major importance. Modern green buckram, gilt. Original paper covers, taped, and bound in. 8vo. 50.00

1186. --. CATALOGUE OF THE SNOW COLLECTION OF MODERN SILVER MEDALS AND COINS WITH A COPIOUS APPENDIX. New York, Mar. 19-21, 1878. 60 pp., 1,067 lots, errata. The final sale catalogued by this nineteenth century master, who shortly after completing the work became totally blind - a result of his strenuous task in preparing the Stenz sale three years earlier. Strobridge alludes to his eyesight problem in the introduction to this sale, and offers every indication that the malady was cured: "About twenty years ago, Mr. E. J. Snow, of Baltimore, and the writer, who soon after became a resident of that city, commenced life together as amateurs and collectors of 'rare old coins;' we followed our pursuit in great harmony until the breaking out of the war in 1861. Returning to New York in that year, I brought with me all of Mr. Snow's American Coins, leaving with him my own acquisitions, which had been mainly in the early English series.

"The great Gilmour collection was then breaking up, and out of it I had obtained many valuable pieces, among them the pattern groat of Edward I., No. 272 of this catalogue, and the Indian Medal of George II., No. 490, of which I have never seen another example. Since that time Mr. Snow has made constant additions to his cabinet, purchasing largely of myself in the earlier years, and directly from Lincoln & Sons, London.

"The rare and interesting medal of Henry IV. of France, struck to commemorate the battle of Ivry, was brought to this country by Mr. Barthold, of Baltimore, who died many years ago.

"The many beautiful coins and medals of Mexican mint were from the Collection of Brantz Mayer, Esq., who had been a member of the American Legation to Mexico before the war, and author of a valuable work on that country.

"Those who have the names of purchasers at the Mickley sale, may see how many valuable coins Mr. Snow derived from that source; and when I add that Mr. Edward Cogan was for years a caterer for the same Collection, its variety will be sufficiently suggested.

"The number of pieces is not large, but they are generally as fine as possible. They have been catalogued with the most scrupulous care; my son, who has done most of the work, having referred every doubtful question to gentlemen of experience in the profession.

"After a retirement of nearly two years, compelled by what at first threatened to be a total loss of eyesight, I esteem myself fortunate on my reappearance before my friends, in being able to make my debut with this collection."

In the preface Woodward wrote: "The simple announcement of the sale of Mr. Ely's collection, I feel certain, will insure for the catalogue a careful perusal by all collectors into whose hands it may fall."	

"Mr. Ely laid the foundation of his cabinet by the purchase from a New York dealer of a few fine coins, December 12, 1861. From that time until near the end of 1876 he was an enthusiastic collector, attending personally several of the prominent sales, and being represented at nearly all of consequence, and at the same time buying liberally of the various dealers. As showing the extent of his purchases, it may not be amiss to mention that in the writer's fourth semi-annual sale - the McCoy collection - Mr. Ely's bill was \$1,182.90, and this amount was much increased by subsequent purchases from dealers, particularly Mr. Cogan, of pieces bought at

that sale. At the sale of June 29, 1864, his bill was \$363; at semi-annual sale No. 6, \$588.08; semi-annual sale No. 7, \$446.64; Colonel Cohen's sale, \$887.56. His purchases from his brother-in-law, Judge J. P. Putnam, of Boston, were also very extensive. From him he bought at one time Dr. Winslow Lewis's whole English cabinet. This fine collection, which has been the special pride of three successive owners, will be found here entire.

"May 2, 1879, he virtually ceased collecting with the purchase at Elyria of the rare Standish Barry Baltimore Town Pence, though he afterwards acquired from time to time as issued, all the proof United States coins in gold, silver, etc., also some of the important pattern coins."

"In the whole American series this collection as purchased was complete with four exceptions - the half eagles of 1822 and 1831, the dollar of 1804, and one three dollar piece of no great rarity, which has since been supplied, and the entire cabinet is here presented with the exception of some of the recent gold, which is always easily procurable, and a few other gold pieces, which it was thought would not warrant the expenses of sale by auction."

"With the exceptions noted, nothing whatever has been disposed of or in any way reserved, except a few duplicates of an aggregate value of less than ten dollars. On the other hand, additions have been avoided with almost equal care. In one instance an important piece has been substituted for one much inferior in quality, and the silver centre cent has been added."

An extraordinary collection, as may be evidenced by the foregoing. Adams p. 32;  
rated A+. 8vo.

#### ORIGINAL CHAPMAN NEGATIVES

1211A. Chapman, Henry. CLARENCE S. BEMENT. New York, June 26-27, 1918. The complete set of original glass negatives for the nine plates contained in Henry Chapman's important offering of Bement's European gold, silver and copper coins. This and the following lot are believed to be the only surviving original negatives from Chapman's estate, the others having been destroyed during a robbery some years ago. A landmark sale of English coinages. In his preface to the catalogue, Chapman stated, "Mr. Clarence S. Bement has instructed me to sell at public auction, without reserve, his remarkable collection of modern gold, silver and copper coins. Being a gentleman with most refined tastes, and unusual discernment as to quality he has purchased only examples of the various coins in the finest conditions; and in this second part (I sold the first section May 29, 1916) every piece is a gem of its kind, so that Collectors can bid with the fullest confidence in the coins being as described. Such an opportunity is rarely presented and I trust those interested may avail themselves of it fully, and favor me with an extensive line of commissions." Unique. Nine plate negatives, made of glass. 1,000.00

1212. --. ALLISON W. JACKMAN. New York, June 28-29, 1918. The complete set of original glass negatives for the nine plates contained in the catalogue of this remarkable cabinet. A landmark sale containing some of the finest rare colonial coins and large cents, including five mint state 1793's, an uncirculated 1803, and numerous other "gem" specimens. Also included in this outstanding collection was an example of the fabled Brasher Doubloon. Of Jackman, Chapman noted, "Mr. Allison W. Jackman was a highly cultured gentleman who devoted his life to study, having never engaged in business and being a most devoted son with an equally

appreciative mother, his collecting was a pleasure to them both. Born in 1849, he early began collecting coins, which is testified to by notes in his Numismatic diary where he mentions having bought this or that in the early '60's and his interest never ceased. Here therefore, truly is a life work and how well he has mastered it is shown by the coins which I describe in the brief space of an auction catalogue.

"There are so many gems in this beautiful collection that it is very difficult to make a selection without seeming to prejudice those not so designated and I am therefore loathe to attempt it and decided to leave it to the collector to carefully peruse the following pages, feeling that he will not be disappointed no matter what series he may choose. The coins are magnificent, many of them of the greatest beauty and rarity. Standing out in a very conspicuous manner is the NEW YORK BRASHER DOUBLOON OF 1787."

Unique. Nine plate negatives, made of glass.
